

PowerLender® 'Sticky Notes' Conversation Log

A Unique Capability

A feature of the PowerLender Loan Origination & Processing System is its unique 'Sticky Notes' Conversation Log capability.

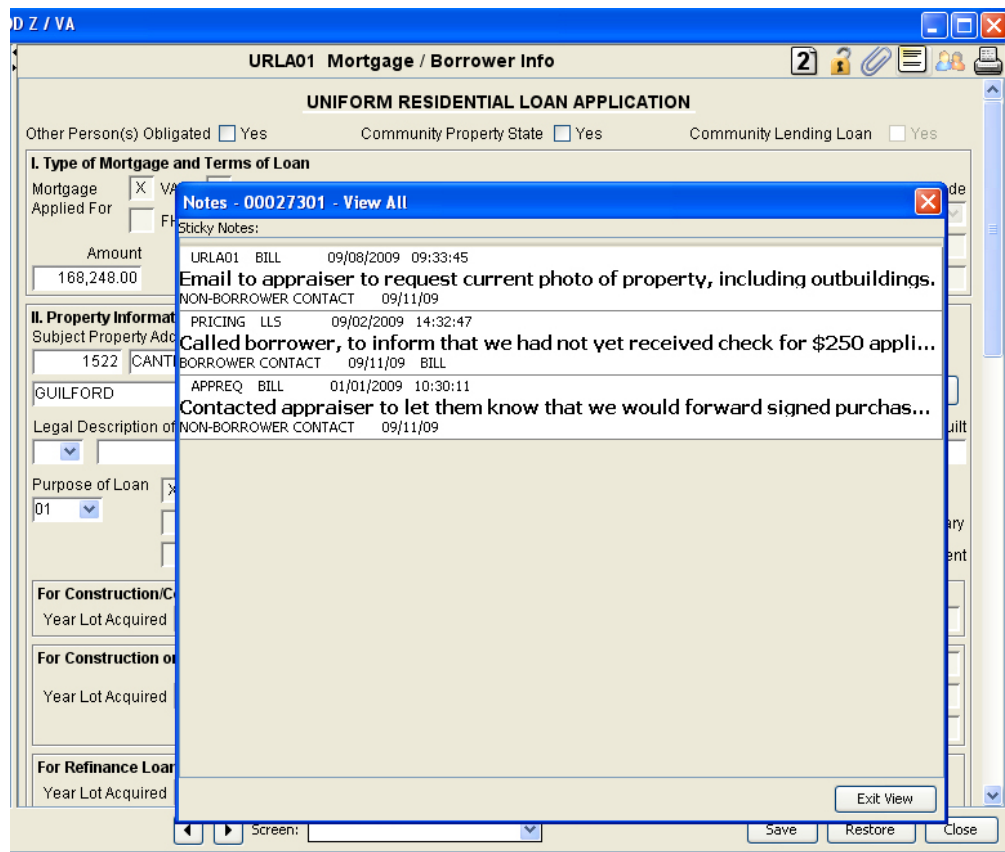

PowerLender allows you to create these Sticky Notes at any point in the loan process for recording conversations, to-do tasks, follow-ups, anything.

Conversations with appraisers, lawyers, title company personnel, can be documented, really anything pertinent to conversation regarding a customer's loan record.

Each Sticky Note entry records the date, time, operator, and even the screen from which the note was submitted.

Sticky Notes create a complete "paper trail" that can be reviewed, stored and printed. It's an auditor's dream!

Overall, Sticky Notes help you make sure important contacts, follow-up actions, and the details do not "fall through the cracks."

ASC has been helping lenders grow for more than 30 years by providing quality software and outstanding, 24/7 technical support. If you'd like to know more about PowerLender, please call us at 800-628-4687 or visit us online at www.powerlender.com.
